

Mr Jonathan Hung, President, Singapore Space and Technology Association (SSTA)

Mr. Hung is President of the Singapore Space and Technology Association (SSTA), Singapore's lead, industry association focused on supporting the development of the space technology industry.

His international work experience includes management roles with the Contraves Group, a Rheinmetall Defense & Boustead Joint-Venture, Flex International and CAE Inc. Prior to CAE, he managed Business Development and Strategic Partnerships at Singapore Technologies Electronics (Satcom & Sensor Systems) and ST (Satellite Systems).

Earlier in his career, Mr. Hung was the Centre Director for Middle East & North Africa Operations at the Singapore Economic Development Board (EDB). There, he handled portfolios in aerospace, marine/offshore and luxury yacht sectors. In particular, he led the development of the space incubator unit that is presently EDB's space office.

Mr. Hung currently serves on the Board of the Air Transport Training College, Spacetime Technology Pte. Ltd., and sits on the Steering Sub-Committee for the new Science Centre Singapore. He is also a member of the Singapore Tourism Board's Conference Ambassador Programme.

He also serves as Vice-President of the Singapore Institute of Aerospace Engineers (SIAE), Co-Chair of the Republic of Singapore Air Force (RSAF) – SIAE Singapore Aerospace Technology & Engineering Conference, Member of the National University of Singapore's Physics Task Force, International Astronautical Federation (IAF) Commercial Spaceflight Safety Committee, and the Ngee Ann Polytechnic Aerospace Technology Advisory Committee.

Mr. Hung was also nominated to the Asia Pacific Regional Space Agency Forum's (APRSAF) Executive Committee.

Jonathan graduated Magna Cum Laude from Embry-Riddle Aeronautical University, double majoring in Aerospace Science and Aviation Business Administration, and currently serves as Chairman of the ERAU Asia Alumni Council.
