

GSTC
GLOBAL SPACE AND
TECHNOLOGY CONVENTION

2020

6 & 7 FEBRUARY

PUSHING THE INNOVATION FRONTIER

GSTC is Asia's Premier Space and Technology event, bringing you the latest space technology news, what's hot in the satellite scene; is an ideal platform to connect with the rapidly developing space industry and the place to meet consumers in Asia.

Come and meet close to 800 delegates, decision makers and leaders of the space industry at one of the largest platform for the space community in Asia through exhibiting, speaking or attending the Global Space and Technology Convention (GSTC) 2020.

www.space.org.sg/gstc

Who should attend?

- Policy-makers from Space Agencies and Government Bodies interested in Asian space developments
- Sales, Marketing and Business Development Executives of Space companies and supporting industries with an interest in the growing Asian space market
- Entrepreneurs, Space Innovators, Financial Institutions, Investors looking for new space commercial opportunities
- Universities and Space Research Institutes looking for commercial and academic collaboration

“Astroscale has been attending GSTC for many years. The high intensity of networking with suppliers, customers from outside the industry, VCs and thought leaders in the space industry makes this a valuable platform for us. We hope to contribute to the dialogue by sharing best practices and addressing the pressing issues for the responsible use of space.”

Nobu Okada

Founder & CEO, ASTROSCALE PTE. LTD.

“GSTC has given us many leads to pursue and has opened many doors for Aliena. We met industry leaders, decision makers and investors through this very well organized event. The start-up pitching session was a great learning opportunity. We look forward to continued support and participation in the upcoming GSTCs.”

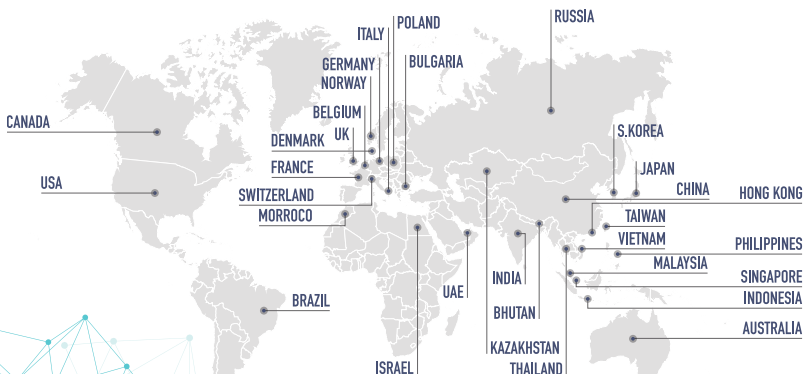

Mark Lim

Founder, Aliena Pte Ltd

“CNES is committed to forge a stronger cooperation with its Asian partners. The GSTC is an important platform to share our visions and to find new opportunities for joint developments.”

Jean-Yves Le Gall

President, Centre National d'Etudes Spatiales (CNES)

GSTC 2019 Speakers

The 11th edition of GSTC held on 14 & 15 February 2019 at St Regis Singapore attracted close to 800 participants from 300 companies globally. The convention heard from over 60 speakers and almost 40 exhibitors from France, India, Japan, United States of America, Europe, China, Israel, Singapore and more. C-suite, senior management level decision makers and influencers made up over 60% of the total attendance. GSTC 2019 is the definitive platform for space conversations, new opportunities and creation of partnerships.

Graced by Minister Chan Chun Sing (Ministry for Trade and Industry, Singapore), Mr Jean-Yves Le Gall (President, Centre National d'Etudes Spatiales), Prof Itzik Ben Israel (Chairman, Israel Space Agency), Mr Yang Baohua (Vice President, China Aerospace Science and Technology Corporation) and many others.
